

We wish this year had ended differently because our students deserve to display their creativity at the annual Spring Arts Festival. Unfortunately, life had different plans. Though this video is only a small portion of our students, it is a window of how blessed we are to teach such wonderful children. The video showcases just a fraction of the talent of our Elmwood students. May everyone be blessed with health and happiness. We hope to see everyone next year making a mess of the art room. To our Seniors, you will be missed so much and best of luck for a bright future.

Sincerely,

Mrs. Meyer & Mrs. Benner
